

Custody Visiting - Reports on Visits to Police Stations Period – 1st January to 31st March 2009

Notes

1. Comments by Custody Visitors highlighted in bold italics are matters that were brought to the immediate attention of the officer in charge.
2. Custody Visitors may contact custody staff at Gainsborough, Sleaford, Stamford, Louth and Mablethorpe police stations before a planned visit to ascertain if there any detainees being held in custody. Visitors have the option of cancelling a visit if there are no detainees present.
3. It is permissible for Custody Visitors to undertake visits on their own if the purpose of those visits is to inspect the condition of custody facilities and not to visit detainees.

STATION & VISITORS	DATE	TIME	No. IN	No. VISITED	REASONS WHY OTHER PERSONS NOT VISITED	COMMENTS OF VISITORS	FORCE RESPONSE
LINCOLN							
Visitor A/Visitor B	11/1/09	1433	12	4	1 x interview 3 x no reason	<i>Minor matters dealt with to satisfaction of ICV.</i> All detainees satisfied with treatment whilst in custody. All of suite clean and tidy. Well received.	N/A
Visitor A/Visitor B	14/1/09	1428	2	0	1 x interview 1 x being booked in (observed booking in and appeared to be treated appropriately)	<i>None.</i> Some cells out of use for remedial work, being undertaken at time of visit. Well received area clean & tidy.	N/A
Visitor A/Visitor B	18/1/09	2150	7	3	2 x asleep 2 x no reason	<i>Faulty sink tops in holding toilet and surgery.</i> Very well received by Officers and staff	Repaired by Caretakers.

Visitor A/Visitor B	23/1/09	1130	3	3	N/A	<p>Tap in holding area is still very loose Tap in surgery room toilet is still loose 4 cells currently closed due to ligature point requiring detainees to be taken to other police stations Noted that M15 & M4 closed due to ligature point around the call button M5 & M6 heating problems</p> <p>Well received by staff and detainees.</p>	<p>This related to some plaster removed form around a "call" button (inside the cell used by a detainee if they require attention). Due to the lack of plaster, it was considered a potential ligature point which a detainee could use to injure themselves.</p> <p>Whilst this seemed a simple repair task, it is not possible to use a normal silicone filler as this can be picked at and removed again. We liaised with HQ Estates to obtain the correct type of filler. One type used was not adequate, so another was sought.</p> <p>However, I can now confirm that this has been repaired and we have a stock of the correct type of filler so any future repairs will be attended to in a more acceptable time period. (response 6/3/09)</p> <p>The taps in the holding area and in the surgery room toilet have been repaired by the Caretaker.</p> <p>The M5 & M6 heating problems have been repaired by the Caretaker.</p>

Visitor A/Visitor B	26/1/09	955	10	2	<p>2 x refusals 1 x interview 1 x with doctor 1 x being processed 1 x asleep 2 x none given</p>	<p>Custody Sgt stated all detainees seen. 1 detainee worried about phoning work, now being interviewed. V2 very confused old injuries, about to be seen by doctor, on strict watch.</p> <p>3 cells out of use M4, M6, M7. No problems with solicitors. Plastic card missing. Cells, showers, toilets all checked.</p> <p>Good co-operation by custody escort.</p>	<p>Various cells have been out of use due to plaster issues around call point buttons and a hole in metal beneath beds which have been required to be filled. This was referred to HQ Estates for clarification of the correct substance to use (as it needs to be hard and unpickable, and non-toxic). One was recommended but didn't work effectively - we now have a supply of the correct type. However, it does have a drying period so we have been doing a few cells at a time which made them unuseable. All now done. (9/4/09)</p>

Visitor A/Visitor B 10267	5/1/09	1358	0	0	N/A	<p>Detention room 1 very cold, no heating.</p> <p>Tour of custody suite all ok, clean and tidy. Custody staff courteous and efficient.</p>	The caretaker has been round the Custody suite with Pat Elwick to discuss how the heating system works and now has a full understanding. He has also been round with the Contractors (believe it may be Selmec). Basically the

							outcome was that there isn't anything else we can do, certainly at Divisional level. The system is not fit for purpose. The temps are set correctly and the appropriate vents are monitored and adjusted accordingly (depending on seasons). If anyone can suggest anything else I will gladly look into it further.

Visitor A/Visitor B	27/1/09	1604	2	1	1 x none given	Loose plaster and paint at the bottom of one wall in the kitchen, cause? Disabled toilet opposite V1 cell for V1 use Has various ligature points to use when toilet door is closed	Confirmed as sorted and repaired 1.5.09 (Shower blockage was found to be the cause) Disabled Toilet - the custody suite was built to Home office standards and the Home office visited and "passed" the suite prior to it opening. The custody staff also advise that the only cell that would use it would be the vulnerable cell as all others have toilets in

							them. I know that this actually makes it possibly more concerning but the custody staff tell us that anyone using that facility would be fully supervised i.e not standing beside them but immediately outside the door with the door ajar so they would be aware if the person was trying to self harm in any way.
Visitor A/Visitor B	7/2/09	1050	5	2	1 x refused 2 x interview (seen but not interviewed)	<i>Detainee M3 requested phone call to wife, duty Sgt informed and arranging.</i> <i>Detainee M1 had grazed left elbow, informed received either during arrest or at time of incident prior to arrest. Visitor A/Visitor B	27/2/09	1908	2	1	1 x in process of being released	<i>A shower gel container had been left in the female showers, it had a broken top which was sharp and potentially dangerous. Custody officer removed it. 1. Contrary to what was said a t a recent training session, the ordinary blankets pray and the hem could be torn off. 2. 'Whistling' sound from air conditioning in D1 & D2 should be investigated by an engineer. 3. Concern was shown by custody officer that staff/detainees lockers in room and are not monitored by CCTV.</i> Custody staff were very helpful.	<ol style="list-style-type: none"> 1. Blankets – the Admin Manager has advised if they have a vulnerable detainee they give them anti self-harm blankets rather than the ordinary ones. (1.5.09) 2. Whistling sound from air conditioning - filters now cleared and sound gone away (1.5.09) 3. Staff/detainees locker room – Admin Manager advised no-one should be left alone in that room so not sure if there is a need for cctv in there
